

Prayer Directives for Louisiana

- 1) We believe the Lord has said Louisiana is to be instrumental in releasing life and breaking the death culture that has invaded our nation. **Pray for the army that God is raising up to have wisdom to know how to release the “life of God” at every level.**
- 2) The Lord has said that He wants to merge the different streams of prayer across Louisiana. **Pray for effective networking of these streams and a greater level of mobilization for the prayer army as well.**
- 3) Worship and intercession being released through Louisiana to the nation are mandates from the Lord. **Please pray for the church to arise to this clarion call.**
- 4) We perceive that there is still a general lack of recognition and acceptance of the apostolic even though there are emerging apostolic works across the state. We tend to see connections for the purpose of building a structure instead of building relationships. **Pray for a divisive competitive spirit to be replaced with kingdom vision and for the concept of “family” replacing that of organization. Pray for the increase of recognition and the connecting of the leaders God is raising up and for continued growth of covenant alignment and power of agreement.**
- 5) The Lord continues to uncover roots of racism that are linked with the death spirit. **Pray for the church to hear the next phase of strategy for dismantling this spirit of racism. Pray for a perfecting in His love that causes us to not just “cross over” but to submit one to another, promote one another’s God-given visions, and to connect in such a way that we will see each people group come into its redemptive purpose.**
- 6) **Pray for the grassroots movement that has been righteously influencing government to continue to grow and for churches and intercessors to be more effectively networked.** 2007 is a target date when we will have an approximate 51% turnover in our state legislature because of existing term limit statutes.
- 7) **Pray for relationships to be developed with First Nations people in Louisiana,** which is critical for the healing and stewardship of the land.
- 8) **Pray for the righteous move of God through our children and youth** that has been prophesied to come forth.

9) Pray for African American church leaders to arise walking under a new mantle from the Lord. Pray specifically for those who have answered the Lord's call to bring leadership in the area of repentance.

10) Pray that Louisiana will see a full manifestation of David's government replacing the old Saul structure throughout our state. Declare that Louisiana will rebuild according to God's plan and not man's!
